BKBIA Mission

The purpose of the Bixby Knolls Business Improvement Association is to promote the interests of its professional, service and retail members, to enhance the common areas within the BIA area, to facilitate the exchange of business information, ideas and to promote the highest and ethical standards.

What is a "BIA"?

A "Business Improvement Association" is a proactive organization of business people who join together to pool their resources to promote the area for the benefit of the business district.

What is a "BID"?

A "Business Improvement District" (BID) is a defined area within which businesses pay an additional fee in order to fund improvements within the district's boundaries. BIDS are regulated according to the California Streets and Highways Code. The code that applies is the 1989 Law that starts with Section 36500. BIDs offer local businesses the chance to join together and assess themselves for agreed-upon improvements. BIDs provide cleaner streets and sidewalks, landscape beautification, enhanced security, capital improvements, special events and area marketing. BIDS offer supplemental services already offered by the city.

Benefits

A business improvement district (BID) offers many benefits and services beyond what the city can provide. The BKBIA can assist with marketing & promotion of your business and connect you with other business members for collaboration. The BKBIA also connects you with helpful resources such as the Small Business Development Center and the city's loan program. Our goal is to produce and promote events to engage the local community to support our business corridors. The BKBIA hires a Clean Team to ensure the district remains litter & graffiti-free and maintains the many trees and landscaping projects. We also hire a private security company for daily patrols to help keep the business areas safe. One of the most essential features of a BID is being an advocate for its members. If you have any issues with city processes while preparing to open or even remodel/expand your business, please contact us for assistance.
